WHAT IN THE BOX:

1. One electric Pistol
2. One screw driver
3. One communication cable for PA system usage

The batteries are not included in the package

GENERAL OPERATION:

1. Load **3 x 1.5V AA** alkine batteries in the battery chamber.

(batteries are not included in the package)

2. Connect the AUX output port of pistol & Aux port **of PA system** with communication cable.

3. Switch to  sound mode and POWER light turns on.

4. Select sound choice of Starting pistol sound, Whistle od Siren.

5. Under the Pistol mode, if the flash light is needed for umpire at finish

line, slide the switch to  (sound + light mode). When “CHARGED” light up, it means when you pull trigger, you will see flash and gun sound.

START – the pistol, whistle or siren sound goes off at the same time as the red flash light.

6. **FALSE START CALL BACK** – Pull trigger again immediately and release the pistol sound. “CHARGED” will light up again in approx. 3.5 sec for restart.

7. If false start call back is not necessary, “CHARGED” will light up automatically in approx. 3.5 sec for next start.

CONNECT TO RACE CLOCK:

Connect the AUX output port of pistol  & Aux port of **Race Clock** with stereo cable.
